aconitate Δ-isomerase

Cat. No. EXWM-5504

Lot. No. (See product label)

Introduction

Description	cis-Aconitate is used to designate the isomer (Z)-prop-1-ene-1,2,3-tricarboxylate. This isomerization could take place either in a direct cis-trans interconversion or by an allylic rearrangement; the enzyme has been shown to catalyse the latter change.
Synonyms	aconitate isomerase

Product Information

Form	Liquid or lyophilized powder
EC Number	EC 5.3.3.7
CAS No.	37318-48-2
Reaction	trans-aconitate = cis-aconitate
Notes	This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage	Store it at +4 ℃ for short term. For long term storage, store it at -20 ℃~-80 ℃.
