Creative Enzymes®

Enzyme protectant AFP

Cat. No. AFP-001

Lot. No. (See product label)

Introduction

Description	Enzyme protectant AFP is a stabilizer and diluent for broad-spectrum enzyme freeze-dried enzymes and proteins. It can stabilize various liquids or freeze-dried agents such as oxidase, SOD, glycosidase, etc., especially for freeze-dried enzymes, SOD, etc. The effect is better when combined with PPCD.
Synonyms	Enzyme protectant AFP; Enzyme protectant; AFP

Product Information

Form	White Powder
Purity	≥99.0%

Usage and Packaging

Package	100g/Bottle

Storage and Shipping Information

Storage	Store at 2° C~8° C. Protect from moisture.
