Protease Inhibitor Mix M

Cat. No. INBZ-010

Lot. No. (See product label)

Introduction

Applications	Mixture of 6 protease inhibitors with broad spectrum of activity for protease. It is especially formulated for use with extracts from mammalian tissue, but can also be used with other extracts.

Product Information

Formulation	In 20 mM Tris-HCl buffer (pH8.0) containing 1 mM DTT, 0.1 M Nacl, 10% glycerol.
Targets	aspartate-; cysteine-; serine-proteases; aminopeptidases (metallo-proteases)

Storage and Shipping Information

Storage	-15 °C to -25 °C
