Longan powder

Cat. No. EXTZ-537

Lot. No. (See product label)

Introduction

Description	Longan powder is a powdered product processed from the fruit of the longan, a subtropical specialty originally from the southern and southwestern parts of China. It is not only a delicious fruit but also has high medicinal value. Longan powder has various health benefits, including nourishing the spleen and stomach, benefiting the heart and intelligence, and nourishing blood and calming the mind. It can be used to treat symptoms such as spleen and stomach weakness, lack of appetite, deficiency of qi and blood, insomnia, and forgetfulness. Longan powder retains the natural flavor of longan, with a sweet taste, delicate texture, and a unique aroma
