Urea solution

Cat. No. CSUB-0608

Lot. No. (See product label)

Introduction

Applications	Recommended for the detection of urease activity.
Synonyms	Carbamide; Carbonyldiamide

Product Information

CAS No.	57-13-6
Molecular Weight	60.06
Concentration	40 % (w/v) in H2O
Substrates	Urease

Usage and Packaging

Preparation Instructions	Warm the refrigerated 40% urea solution to room temperature. Aseptically add 5 mL to 95 mL of sterile molten Urea Agar Base (Christensen). Mix well and dispense in sterile tubes.

Storage and Shipping Information

Storage	2-8°C
