

Phosphoramidon

Cat. No. INBZ-003

Lot. No. (See product label)

Introduction

Applications Inhibitor for thermolysin and neutral endopeptidase-24.11 (ANP Degradation Enzyme). Inhibits the activity of 'Endothelin Converting Enzyme' (3 - 9). Microbial product.

Product Information

Appearance White to light yellowish powder

CAS No. 119942-99-3

Molecular Formula C₂₃H₃₂N₃O₁₀P·Na₂

Chemical Name N-(α-Rhamnopyranosyloxyhydroxyphosphinyl)-L-Leu-L-Trp·Na· 2H₂O

Molecular Weight 587.5

Purity 90%

Targets Thermolysin; Neutral endopeptidase-24.11 (ANP Degradation Enzyme)

Storage and Shipping Information

Storage 2 °C to 8 °C
