

Native *Aspergillus niger* Amano Lipase A

Cat. No. NATZ-046

Lot. No. (See product label)

Introduction

Description Amano Lipase A is used for: Chemoselective O-deacetylation reactions, Hydrophilic ionic liquid-supported epoxidation reactions, and regioselective hydrolysis reactions.

Product Information

Species *Aspergillus niger*

Source *Aspergillus niger*

Form powder

CAS No. 9001-62-1

Activity $\geq 120,000$ U/g

Storage and Shipping Information

Storage 2-8°C
