

## Rapidase extra fruit aroma

Cat. No. FJE-1026

Lot. No. (See product label)

### *Introduction*

**Description** Rapidase extra fruit aroma is a microgranulated pectolytic enzyme preparation with essential side activities. It allows for targeted extraction of fruity aroma precursors contained in red grape skins.

**Applications** Enzyme for fast, early aroma precursor extraction in red grape maceration

### *Storage and Shipping Information*

**Storage** To be stored in a dry cool place between 5 and 15°C
