

L-Glutamine

Cat. No. EXTZ-478

Lot. No. (See product label)

Introduction

Description L-Glutamine is an essential amino acid for cell growth. It can be used as an energy source for cultured cells and participates in protein synthesis and nucleic acid metabolism. L-Glutamine is produced by our muscles and is commonly found in our diets, and it is very well established that glutamine is needed when the body is recovering from exercise and serious illness.
