

Lotus Seed Peptide

Cat. No. CAFP-019

Lot. No. (See product label)

Introduction

Description Lotus seed is rich in nutrients, rich in a variety of nutrients needed by the human body, has a heart and tranquilize the mind, brain, eliminate fatigue and other medicinal value. Lotus seed contains nutrients, in addition to starch to protein content is the most abundant, per 100 grams of lotus seed containing protein 17.2g, is a high-quality plant protein. Lotus seed peptide is one of the active ingredients. Lotus seed protein is enzymatically converted into lotus seed peptide by protease, so that lotus seed peptide presents a variety of special characteristics that lotus seed protein does not have, such as fast absorption, easy digestion, low antigenicity, good physicochemical and processing characteristics.

Product Information

Source	Lotus Seed
Appearance	Off-white powder
Molecular Weight	<1000 Da
Purity	99%
Solubility	Water-soluble

Usage and Packaging

Package 1kg, 5kg, 10kg aluminum foil vacuum bag; or 20kg, 25kg Fiber Drum

Storage and Shipping Information

Storage Store in a cool, ventilated and dry place, avoid direct sunlight.
