

## Oyster Peptide

Cat. No. CAFP-013

Lot. No. (See product label)

### Introduction

**Description** Oyster peptide is derived from protein which comes from oyster meat by directional restriction enzyme small peptides separation technology. Oyster peptide has abundance of protein, vitamin, moderate of microelement and taurine. Besides, it contains multiple nutrition which is specially owned by oceans. The taurine can lower blood fat, inhibit the aggregation of platelet, improve hyperlycaemia, enhance human immunity and increase the metabolism. By this, the taurine is widely applied in medical products. So, oyster peptide is showing a great effect on preventing arteriosclerosis, coronary disease, coronary disease, angina, hyperlipemia, arrhythmia, diabetes mellitus, chronic hepatitis, hypo immunity.

### Product Information

<b>Source</b>	Oyster
<b>Appearance</b>	Off-white powder
<b>Molecular Weight</b>	<1000 Da
<b>Purity</b>	99%
<b>Solubility</b>	Water-soluble

### Usage and Packaging

**Package** 1kg, 5kg, 10kg aluminum foil vacuum bag; or 20kg, 25kg Fiber Drum

### Storage and Shipping Information

**Storage** Store in a cool, ventilated and dry place, avoid direct sunlight.
