

Fagomine

Cat. No. CEI-1336

Lot. No. (See product label)

Introduction

Description D-Fagomine is an iminosugar used for diabetes

Synonyms D-Fagomine

Product Information

CAS No. 53185-12-9

Molecular Formula C₆H₁₃NO₃

Chemical Name (2R,3R,4R)-2-(hydroxymethyl)piperidine-3,4-diol

Molecular Weight 147.18

Purity 0.98

Targets Glycosidases

Solubility Soluble in DMSO

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
