

## 4-Methylumbelliferyl $\alpha$ -L-arabinofuranoside

Cat. No. CSUB-0684

Lot. No. (See product label)

### Introduction

**Description** 4-Methylumbelliferyl  $\alpha$ -L-arabinofuranoside is a fluorogenic substrate for  $\alpha$ -L-arabinofuranosidase, producing a blue fluorescent solution upon cleavage.

**Applications** A fluorogenic substrate for  $\alpha$ -L-arabinofuranosidase

### Product Information

**Form** Solid

**CAS No.** 77471-44-4

**Molecular  
Formula** C<sub>15</sub>H<sub>16</sub>O<sub>7</sub>

**Molecular  
Weight** 308.28

**Purity** >96%

**Substrates**  $\alpha$ -L-Iduronidase

### Storage and Shipping Information

**Storage** Store at -20° C
