

5-Bromo-3-indoxyl caprylate

Cat. No. CSUB-0703

Lot. No. (See product label)

Introduction

Description 5-Bromo-3-indoxyl caprylate is employed as a chromogenic substrate for esterase with C8 activity. Lapis-Caprylate produces a blue colored precipitate when cleaved.

Applications A chromogenic substrate

Synonyms 5-Bromo-3-indoxyl-octanoate

Product Information

Form Solid

CAS No. 133950-69-3

Molecular Formula C₁₆H₂₀BrNO₂

Molecular Weight 338.25

Substrates Alkaline phosphatase

Storage and Shipping Information

Storage Store at -20° C
