

6-Chloro-3-indoxyl-N-acetyl- β -D-galactosaminide

Cat. No. CSUB-0719

Lot. No. (See product label)

Introduction

Description 6-Chloro-3-indoxyl-N-acetyl- β -D-galactosaminide is a chromogenic substrate for N-Acetyl- β -D-galactosaminidase producing a salmon-colored precipitate.

Applications A chromogenic substrate

Product Information

Form Solid

CAS No. 501432-61-7

Molecular Formula C₁₆H₁₉ClN₂O₆

Molecular Weight 370.79

Substrates Galactocerebrosidase

Storage and Shipping Information

Storage Desiccate at -20° C
