

β-Hydroxypyruvic acid

Cat. No. CSUB-0958

Lot. No. (See product label)

Introduction

Description β-Hydroxypyruvic acid is a metabolite involved in the pathway of carbon in photorespiration.

Applications A metabolite

Synonyms 3-Hydroxy-2-oxopropanoic acid

Product Information

CAS No. 1113-60-6

Molecular Formula C3H4O4

Molecular Weight 104.06

Substrates MCCase

Storage and Shipping Information

Storage Store at 4° C

Tel: 1-631-562-8517 1-516-512-3133 **Email:** info@creative-enzymes.com
