

## Enzyme blend for Alkali

Cat. No. LE-2123

Lot. No. (See product label)

### Introduction

**Description** It is a mild bating agent based on pancreatic proteases. It is a versatile bate suited to produce soft leather for shoes and garments. It removes non-leather proteins like albumin and globulins producing softness along with excellent grain tightness.

**Applications** Leather

**Synonyms** for Alkali; pancreatic proteases; versatile bate; Leather Enzymes; Enzyme blend for Alkali; LE-2123

### Product Information

**Appearance** powder or liquid

### Usage and Packaging

**Package** 25kg/paper barrel (powder form), 30kg/polyster barrel (liquid form).
