

flavin reductase (NADPH)

Cat. No. EXWM-1512 Lot. No. (See product label)

Introduction

- **Description** The enzyme reduces riboflavin, and, less efficiently, FMN and FAD. NADH is oxidized less efficiently than NADPH.
- **Synonyms** NADPH:flavin oxidoreductase; riboflavin mononucleotide (reduced nicotinamide adenine dinucleotide phosphate) reductase; flavin mononucleotide reductase; flavine mononucleotide reductase; FMN reductase (NADPH); NADPH-dependent FMN reductase; NADPH-flavin reductase; NADPH-FMN reductase; NADPH-specific FMN reductase; riboflavin mononucleotide reductase; riboflavine mononucleotide reductase; NADPH-2 dehydrogenase (flavin); NADPH2:riboflavin oxidoreductase

Product Information

| Form | Liquid or lyophilized powder |
|-----------|--|
| EC Number | EC 1.5.1.30 |
| CAS No. | 56626-29-0 |
| Reaction | reduced riboflavin + NADP+ = riboflavin + NADPH + H+ |
| Notes | This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications. |
