

## **Native Porcine Glutamic-Pyruvic Transaminase**

Cat. No. NATE-0068

Lot. No. (See product label)

## Introduction

**Description** Alanine transaminase (ALT) is a transaminase enzyme (EC 2.6.1.2). It is also called alanine

aminotransferase (ALAT) and was formerly called serum glutamate-pyruvate transaminase (SGPT) or serum glutamic-pyruvic transaminase (SGPT). ALT is found in plasma and in various body tissues, but is most common in the liver. It catalyzes the two parts of the alanine cycle. Serum ALT level, serum AST (aspartate transaminase) level, and their ratio (AST/ALT ratio) are commonly measured clinically as

biomarkers for liver health. The tests are part of blood panels.
