

phenylethanolamine N-methyltransferase

Cat. No. EXWM-1886

Lot. No. (See product label)

Introduction

Description Acts on various phenylethanolamines; converts noradrenaline into adrenaline.

Synonyms noradrenaline N-methyltransferase; noradrenalin N-methyltransferase; norepinephrine methyltransferase; norepinephrine N-methyltransferase; phenethanolamine methyltransferase; phenethanolamine N-methyltransferase

Product Information

Form Liquid or lyophilized powder

EC Number EC 2.1.1.28

CAS No. 9037-68-7

Reaction S-adenosyl-L-methionine + phenylethanolamine = S-adenosyl-L-homocysteine + N-methylphenylethanolamine

Notes This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
