

Native Rabbit Glyceraldehyde-3-phosphate Dehydrogenase

Cat. No. NATE-0281

Lot. No. (See product label)

Introduction

Description

Glyceraldehyde-3-phosphate dehydrogenase catalyzes the conversion of glyceraldehyde-3-phosphate to 1,3-bisphosphoglycerate as part of glycolysis. It has also been shown to have roles in initiation of apoptosis, transcription activation and the shuttling of ER to Golgi vesicles.
