

## demethylactenocin mycarosyltransferase

Cat. No. EXWM-2554

Lot. No. (See product label)

### Introduction

#### Description

The enzyme participates in the biosynthetic pathway of the macrolide antibiotic tylosin, which is produced by several species of Streptomyces bacteria.

#### Synonyms

tylCV (gene name); tylC5 (gene name)

### Product Information

#### Form

Liquid or lyophilized powder

#### EC Number

EC 2.4.1.318

#### Reaction

dTDP-β-L-mycarose + demethylactenocin = dTDP + demethylmacrocin

#### Notes

This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

### Storage and Shipping Information

#### Storage

Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
