

[pyruvate, water dikinase] kinase

Cat. No. EXWM-3154

Lot. No. (See product label)

Introduction

Description The enzyme from the bacterium Escherichia coli is bifunctional and catalyses both

the phosphorylation and dephosphorylation of EC 2.7.9.2, pyruvate, water dikinase. cf. EC 2.7.4.28, ([pyruvate, water dikinase] phosphate) phosphotransferase. The enzyme is specific for a reaction intermediate form of EC 2.7.9.2, where it phosphorylates an active site histidine. It has no activity toward EC 2.7.9.1 pyruvate, phosphate dikinase (cf. EC 2.7.11.32, [pyruvate, phosphate dikinase]

1/1

kinase).

Synonyms PSRP (ambiguous); PEPS kinase

Product Information

Form Liquid or lyophilized powder

EC Number EC 2.7.11.33

Reaction ADP + [pyruvate, water dikinase] = AMP + [pyruvate, water dikinase] phosphate

Notes This item requires custom production and lead time is between 5-9 weeks. We can

custom produce according to your specifications.

Storage and Shipping Information

Storage Store it at +4 °C for short term. For long term storage, store it at -20 °C \sim -80 °C.
