

geranyl diphosphate phosphohydrolase

Cat. No. EXWM-3705

Lot. No. (See product label)

Introduction

Description The enzyme, characterized from roses, is involved in a cytosolic pathway for the biosynthesis of free monoterpene alcohols that contribute to fragrance. In vitro the enzyme also acts on (2E,6E)-farnesyl diphosphate.

Synonyms NUDX1 (gene name)

Product Information

Form Liquid or lyophilized powder

EC Number EC 3.1.3.98

Reaction geranyl diphosphate + H₂O = geranyl phosphate + phosphate

Notes This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
