

## difructose-anhydride synthase

Cat. No. EXWM-3817

Lot. No. (See product label)

### Introduction

**Description** Produces difructose anhydride by the reverse reaction of partial hydrolysis, forming an  $\alpha$ -fructosidic linkage.

**Synonyms** inulobiose hydrolase

### Product Information

**Form** Liquid or lyophilized powder

**EC Number** EC 3.2.1.134

**CAS No.** 121479-55-8

**Reaction** bis-D-fructose 2',1:2,1'-dianhydride + H<sub>2</sub>O = inulobiose

**Notes** This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

### Storage and Shipping Information

**Storage** Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
