coagulation factor IXa

Cat. No. EXWM-4122

Lot. No. (See product label)

Introduction

Description	A chymotrypsin homologue, and one of the γ-carboxyglutamic acid-containing blood coagulation factors. The proenzyme factor IX is activated by factor XIa. In peptidase family S1 (trypsin family)
Synonyms	activated Christmas factor; blood-coagulation factor IXa; activated blood-coagulation factor IX; autoprothrombin II; blood platelet cofactor II; activated blood coagulation factor XI

Product Information

Form	Liquid or lyophilized powder
EC Number	EC 3.4.21.22
CAS No.	37316-87-3
Reaction	Selective cleavage of Arg┼Ile bond in factor X to form factor Xa
Notes	This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage	Store it at +4 ℃ for short term. For long term storage, store it at -20 ℃~-80 ℃.
