

coagulation factor IXa

Cat. No. EXWM-4122

Lot. No. (See product label)

Introduction

Description

A chymotrypsin homologue, and one of the γ-carboxyglutamic acid-containing blood coagulation factors. The proenzyme factor IX is activated by factor XIa. In peptidase family S1 (trypsin family)

Synonyms

activated Christmas factor; blood-coagulation factor IXa; activated blood-coagulation factor IX; autoproteolytic factor IX; blood platelet cofactor II; activated blood coagulation factor XI

Product Information

Form

Liquid or lyophilized powder

EC Number

EC 3.4.21.22

CAS No.

37316-87-3

Reaction

Selective cleavage of Arg-Ile bond in factor X to form factor Xa

Notes

This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage

Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
