gastricsin

Cat. No. EXWM-4267

Lot. No. (See product label)

Introduction

Description	Formed from progastricsin, apparently in the gastric juice of most vertebrates. In addition to the fundus, progastricsin is also secreted in antrum and proximal duodenum. Seminal plasma contains a zymogen that is immunologically identical with progastricsin. In peptidase family A1 (pepsin A family).
Synonyms	pepsin C; pig parapepsin II; parapepsin II

Product Information

Form	Liquid or lyophilized powder
EC Number	EC 3.4.23.3
CAS No.	9012-71-9
Reaction	More restricted specificity than pepsin A, but shows preferential cleavage at Tyr┼ bonds. High activity on hemoglobin
Notes	This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage	Store it at +4 ℃ for short term. For long term storage, store it at -20 ℃~-80 ℃.
