

mitochondrial intermediate peptidase

Cat. No. EXWM-4341

Lot. No. (See product label)

Introduction

Description

A homologue of thimet oligopeptidase. Natural substrates are precursor proteins that have already been processed by mitochondrial processing peptidase. In peptidase family M3 (thimet oligopeptidase family)

Synonyms

mitochondrial intermediate precursor-processing proteinase; MIP

Product Information

Form

Liquid or lyophilized powder

EC Number

EC 3.4.24.59

CAS No.

136447-30-8

Reaction

Release of an N-terminal octapeptide as second stage of processing of some proteins imported into the mitochondrion

Notes

This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage

Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
