

isatin hydrolase

Cat. No. EXWM-4504

Lot. No. (See product label)

Introduction

Description

Requires Mn²⁺. This enzyme, found in several bacterial species, is involved in the degradation of indole-3-acetic acid.

Product Information

Form

Liquid or lyophilized powder

EC Number

EC 3.5.2.20

Reaction

isatin + H₂O = isatinate

Notes

This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage

Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
