Creative Enzymes®

iron-chelate-transporting ATPase

Cat. No. EXWM-4672

Lot. No. (See product label)

Introduction

Description	Explore Iron Chelate-Transporting ATPase for advanced research on iron chelate translocation. Perfect for studies in metal ion metabolism and biochemistry. Creative Enzymes provides high-purity, reliable solutions.

Product Information

Form	Liquid or lyophilized powder
EC Number	EC 3.6.3.34
Reaction	ATP + H2O + iron chelateout = ADP + phosphate + iron chelatein
Notes	This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage	Store it at +4 ℃ for short term. For long term storage, store it at -20 ℃~-80 ℃.
