

## capsular-polysaccharide-transporting ATPase

Cat. No. EXWM-4676

Lot. No. (See product label)

### Introduction

#### Description

Premium Capsular Polysaccharide-Transporting ATPase for research on polysaccharide translocation and capsule formation. Perfect for microbiology and immunology studies. Creative Enzymes ensures reliable, high-purity products.

### Product Information

#### Form

Liquid or lyophilized powder

#### EC Number

EC 3.6.3.38

#### Reaction

ATP + H<sub>2</sub>O + capsular polysaccharidein = ADP + phosphate + capsular polysaccharideout

#### Notes

This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

### Storage and Shipping Information

#### Storage

Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
