Creative Enzymes®

chloroplast protein-transporting ATPase

Cat. No. EXWM-4691

Lot. No. (See product label)

Introduction

Description	A non-phosphorylated, non-ABC (ATP-binding cassette) ATPase that is involved in protein transport. Involved in the transport of proteins or preproteins into chloroplast stroma (several ATPases may participate in this process).

Product Information

Form	Liquid or lyophilized powder
EC Number	EC 7.4.2.4 (Formerly EC 3.6.3.52)
Reaction	ATP + H2O = ADP + phosphate
Notes	This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage	Store it at +4 ℃ for short term. For long term storage, store it at -20 ℃~-80 ℃.
