

chloroplast protein-transporting ATPase

Cat. No. EXWM-4691

Lot. No. (See product label)

Introduction

Description A non-phosphorylated, non-ABC (ATP-binding cassette) ATPase that is involved in protein transport. Involved in the transport of proteins or preproteins into chloroplast stroma (several ATPases may participate in this process).

Product Information

Form Liquid or lyophilized powder

EC Number EC 7.4.2.4 (Formerly EC 3.6.3.52)

Reaction $\text{ATP} + \text{H}_2\text{O} = \text{ADP} + \text{phosphate}$

Notes This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
