Creative Enzymes®

non-chaperonin molecular chaperone ATPase

Cat. No. EXWM-4700

Lot. No. (See product label)

Introduction

Description	This is a highly diverse group of enzymes that perform many functions that are similar to those of chaperonins. They comprise a number of heat-shock-cognate proteins. They are also active in clathrin uncoating and in the oligomerization of actin.
Synonyms	molecular chaperone Hsc70 ATPase

Product Information

Form	Liquid or lyophilized powder
EC Number	EC 3.6.4.10
Reaction	ATP + H2O = ADP + phosphate
Notes	This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage	Store it at +4 ℃ for short term. For long term storage, store it at -20 ℃~-80 ℃.
