Creative Enzymes®

vesicle-fusing ATPase

Cat. No. EXWM-4708

Lot. No. (See product label)

Introduction

Description	A large family of ATP-hydrolysing enzymes involved in the heterotypic fusion of membrane vesicles with target membranes and the homotypic fusion of various membrane compartments. They belong to the AAA-type (ATPase associated with a variety of cell activities) ATPase superfamily. They include peroxin, which apparently is involved in Zellweger's syndrome.

Product Information

Form	Liquid or lyophilized powder
EC Number	EC 3.6.4.6
Reaction	ATP + H2O = ADP + phosphate
Notes	This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage	Store it at +4 ℃ for short term. For long term storage, store it at -20 ℃~-80 ℃.
