

holocytochrome-c synthase

Cat. No. EXWM-5319

Lot. No. (See product label)

Introduction

Description In the reverse direction, the enzyme catalyses the attachment of heme to two cysteine residues in the protein, forming thioether links.

Synonyms cytochrome c heme-lyase; holocytochrome c synthetase; holocytochrome-c apocytochrome-c-lyase

Product Information

Form Liquid or lyophilized powder

EC Number EC 4.4.1.17

CAS No. 75139-03-6

Reaction holocytochrome c = apocytochrome c + heme

Notes This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
