

cellobiose epimerase

Cat. No. EXWM-5396

Lot. No. (See product label)

Introduction

Description The enzyme catalyses the interconversion between D-glucose and D-mannose residues at the reducing end of β -1,4-linked disaccharides by epimerizing the hydroxyl group at the C-2 position of the glucose moiety.

Product Information

Form Liquid or lyophilized powder

EC Number EC 5.1.3.11

CAS No. 37318-37-9

Reaction cellobiose = 4-O- β -D-glucopyranosyl-D-mannose

Notes This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
