

L-erythrulose 4-phosphate epimerase

Cat. No. EXWM-5426

Lot. No. (See product label)

Introduction

Description The enzyme, characterized from the bacterium Mycobacterium smegmatis, participates in the degradation

of L-threitol.

Synonyms lerl (gene name)

Product Information

Form Liquid or lyophilized powder

EC Number EC 5.1.3.39

Reaction L-erythrulose 4-phosphate = D-erythrulose 4-phosphate

Notes This item requires custom production and lead time is between 5-9 weeks. We can custom produce

according to your specifications.

Storage and Shipping Information

Storage Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
