

## aconitate $\Delta$ -isomerase

Cat. No. EXWM-5504

Lot. No. (See product label)

### Introduction

#### Description

cis-Aconitate is used to designate the isomer (Z)-prop-1-ene-1,2,3-tricarboxylate. This isomerization could take place either in a direct cis-trans interconversion or by an allylic rearrangement; the enzyme has been shown to catalyse the latter change.

#### Synonyms

aconitate isomerase

### Product Information

#### Form

Liquid or lyophilized powder

#### EC Number

EC 5.3.3.7

#### CAS No.

37318-48-2

#### Reaction

trans-aconitate = cis-aconitate

#### Notes

This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

### Storage and Shipping Information

#### Storage

Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
