

Protease Inhibitor Mix HP

Cat. No. INBZ-011

Lot. No. (See product label)

Introduction

Applications

Mixture of 4 water-soluble protease inhibitors with broad specificity for protease. Free of metal-chelators. Recommended for purification of polyHis-tagged proteins and for other applications where metal-chelators should be avoided.

Product Information

Formulation

In 20 mM Tris-HCl buffer (pH8.0) containing 1mM DTT, 20% glycerol.

Targets

Cysteine-; serine-proteases

Storage and Shipping Information

Storage

-15 °C to -25 °C
