Creative Enzymes®

Escherichia coli Asparaginase−polyethylene glycol

Cat. No. NATE-0538

Lot. No. (See product label)

Introduction

Description	Asparaginase is an enzyme that catalyzes the hydrolysis of asparagine to aspartic acid. Asparaginases are enzymes expressed and produced by microorganisms.
Synonyms	PEG-Asparaginase; Asparaginase−polyethylene glycol

Product Information

Source	Escherichia coli
Form	lyophilized powder. Contains PEG plus 5% Citrate buffer salts.
Activity	~70 units/mg protein

Storage and Shipping Information

Storage	−20°C
