

Native Catalase from *Corynebacterium* sp.

Cat. No. NATE-1699

Lot. No. (See product label)

Introduction

Description

Catalase is an enzyme that catalyzes the transformation of hydrogen peroxide into water and oxygen. This enzyme functions as a natural antioxidant protecting the cell against oxidative damage. This enzyme finds applications in Research and Clinical Chemistry. It also finds diverse industrial applications in textiles, waste treatment, cosmetics and as a disinfectant agent.

Product Information

Source	Corynebacterium sp.
Form	Lyophilized powder
EC Number	EC 1.11.1.6
CAS No.	9001-05-2
Purity	95%
Activity	15.6 MU/g

Storage and Shipping Information

Storage	2-8°C: at least 2 years
----------------	-------------------------
