

NADP, Disodium Salt

Cat. No. COEC-002

Lot. No. (See product label)

Introduction

Description	NADP, Disodium Salt is a participant coenzyme in aerobic and anaerobic oxidations.
Applications	A participant coenzyme in aerobic and anaerobic oxidation
Synonyms	TPN 2Na

Product Information

Form	Solid
CAS No.	24292-60-2
Molecular Formula	C ₂₁ H ₂₆ N ₇ Na ₂ O ₁₇ P ₃
Molecular Weight	787.4
Purity	≥97%
Melting Point	166-176° C
Solubility	Soluble in water (50 mg/ml), 0.001% aqueous buffer, pH 7.0, methanol, and ethanol (less soluble). Insoluble in ether, and ethyl acetate.
