

Coenzyme Q4

Cat. No. COEC-021

Lot. No. (See product label)

Introduction

Description

Coenzyme Q4 increases the fluorescence polarization of perylene incorporated into ubiquinone-depleted bilayer and mitochondrial vesicles prepared from mitochondrial phospholipids.

Applications

A compound which increases the fluorescence polarization of perylene

Product Information

Form	Liquid
CAS No.	4370-62-1
Molecular Formula	C ₂₉ H ₄₂ O ₄
Molecular Weight	454.64
Purity	≥90%
Refractive Index	1.53 (Predicted)
Density	~1.0 g/cm ³ (Predicted)
