

Pyrroloquinoline quinone

Cat. No. COEC-076

Lot. No. (See product label)

Introduction

Description Pyrroloquinoline quinone is a cofactor of microbial quinoprotein enzyme, and imidazopyrroline. A redox/cofactor found in a a class of enzymes called quinoproteins.

Applications A redox/cofactor found in a a class of enzymes called quinoproteins

Synonyms PQQ

Product Information

Form Solid

CAS No. 72909-34-3

Molecular Formula C₁₄H₆N₂O₈

Molecular Weight 330.20

Solubility Soluble in Methanol and Water

Refractive Index 1.82 (Predicted)

Density 1.87 g/cm³ (Predicted)
