# Native Bovine Protein Phosphatase 2Ac

*Cat. No. NATE-0618*

*Lot. No.* (See product label)

## Introduction

| | |
|---|---|
| ***Description*** | Divalent cation-independent catalytic subunit of protein phosphatase 2A. Useful for functional studies of the A and B subunit of the phosphatase. |
| ***Synonyms*** | Protein Phosphatase 2Ac; PP2Ac |

## Product Information

| | |
|---|---|
| ***Species*** | Bovine |
| ***Source*** | Bovine kidney |
| ***Form*** | buffered aqueous glycerol solution |
| ***Activity*** | ~2 U/vial |
| ***Buffer*** | 1 µg per vial in 50 µl of 50 mM Tris-HCl, pH 7.0, containing 14 mM β-Mercaptoethanol, 1mM benzamidine, 0.1 mM PMSF, 1mM EDTA, and 50% glycerol. |

## Storage and Shipping Information

| | |
|---|---|
| ***Stability*** | −70°C |
