

Diaphorase-3, recombinant

Cat. No. NATE-1927

Lot. No. (See product label)

Introduction

Synonyms Diaphorase-3; Diaphorase 3; Diaphorase

Product Information

Form Lyophilized (containing Potassium phosphate)

Activity 1404 U/mg protein, 965 U/mg solid.

Solubility Dissolve the lyophilized enzyme with distilled water and dilute to 1.0 to 2.0 U/mL with 50 mM Potassium

phosphate, pH 7.5.

Unit One unit of activity is defined as the amount of Di-3 that reduces 1µmol of DCIP (2,6-

Definition dichlorophenolindophenol) per minute at 30°C.

Storage and Shipping Information

Storage At -20 to 5°C. Stable for one year after approval date
