Cat. No. PLP-001

Lot. No. (See product label)

Introduction

Description	Porcine Liver Powder is a powdered food product made from fresh pork liver that has been dried and ground. Porcine Liver Powder is reddish-brown in color and has a strong aroma of pork liver.Porcine Liver Powder is rich in nutrients such as high-quality proteins, vitamin A, vitamin B, and iron, and is easily absorbed by the body. Porcine Liver Powder can be used to make a variety of food products. It has a unique flavor and texture that adds taste and nutrients to dishes, and Porcine Liver Powder is also commonly used as a seasoning to enhance flavor in cooking. Porcine Liver Powder is believed to have blood tonic and nourishing properties, beneficial for people with anemia and poor liver function. It also improves liver function and promotes metabolism and detoxification. In addition, Porcine Liver Powder is used in the field of Traditional Chinese Medicine (TCM), where it is commonly used to tonify the body and strengthen the immune system.
