Creative Enzymes®

0.5% EDTA Trypsin with no phenol red

Cat. No. TENP-005

Lot. No. (See product label)

Introduction

Description	Trypsin solution is widely used for cell dissociation, routine cell culture passaging, and primary tissue dissociation. Concentrated forms of trypsin can be aseptically diluted to 1X using a balanced salt solution without calcium and magnesium. The trypsin concentration required for dissociation varies with cell type and experimental requirements.
Applications	Cell Culture, Mammalian Cell Culture

Product Information

Source	Porcine pancreas
Form	Liquid

Storage and Shipping Information

Shipping Conditions	Dry Ice
